Importance: High

Can I ask one of you to add the appropriate language to the slide? Need to complete today for Pucel meeting tomorrow. Thanks, Ann

Charlie,

There is no mention of the FDA PHN. This is the key factor that drove the need to get more Marlex HGX-030-01. The run out date for the current supply in Oct 13 – Finished goods, July for the resin. We had time to validate the new material but the division

strongly believed that FDA would not approve a material change as a backdoor way to get mesh products off the market. This info needs to be added to tell the full story.

Charlie,

Trying to boil down project to 4-panel for meeting with Pucel on Friday. We consider this a win from the Sourcing side and want to present it as such. Your feedback is much appreciated.

Thanks, Ann
