We will keep in HOLD at this point. Need at least 4 bags for an extrusion run. Maybe for molding for barb?

Charlie,

Is there any benefit to holding the ripped bags and using the material for non-commercial activities, prototypes, etc?

George

Charles

We have 78 good bads, two are ripped and will be scrapped.

Please place all four skids into the locked caged area we reviewed this afternoon.

thks

Charlie

Subject: Pallets
Importance: High

Good morning Charles,

Just a couple of things.

You didn't say which cage to put the pallets of pellets in. Also all cages have their keys in the lock. I was talking to my partner this morning. He thinks it would be better to send your guys over between 1:30 and 2:00.

Thank you

Charles M. Barber
