Charles

Thks for clarification.

The location isn't Spencer. The Urology -WH division has bought material which is located in Marlboro. It will be used at OEM for division. The specific flow of material is:

1. resin to extruder in Belgium to make fibers.
2. fibers to Proxy in Galway to make mesh
3. mesh formatted at Proxy to shape or sent to Medventure in Indiana.
4. Mesh kitting completed at Medventure to go for EO exposure and then Quincy for distribution.

Charlie

The shipment is still sitting on the pier where the vessel off loaded it. it cannot be moved until it has cleared US Customs.

Michael sent me the invoice last night. I need to understand one last point of information before this is processed for clearance.

Which BSC location actually owns product? is it Spencer where it will be used?

Regards,

Charles

Mike

Thks.

I have bi weekly team meeting this AM, is the material already on a truck/train to Indiana?

Charlie?

guys:

here is what I have, you should have the same copy.
1st 5 tons will arrive around 8/9, it's already in U.S., on its way to Chicago.

Regards,
Michael

Afternoon all,

Are we any closer to getting the commercial invoices and any other documentation I may need to clear this shipment? I would like to get the customs clearance process started as soon as possible.

Any help is appreciated.

Thanks!

Regards,

Charles

Thanks George,

Attached is a copy of the Freight Bill and a Copy of the Bill of Lading.

What I need now is a copy of the commercial invoice,

I also need to confirm the deliver too address... The B/L says its being delivered to Steven Gould Corp?

Regards,

Charles

Charles,

Please CC everyone on this message regarding the info you need for the Marlex resin import to Gould in Indy.

Thanks,
George
